

Onni & Ilona: Happy Animals

Visual stimulation for babies

Stimulate your baby's vision with lively animations and delightful sound!

Onni & Ilona: Happy Animals is specifically designed to support early development of eyesight in babies aged 0-12 months. An assortment of 12 charming animals animate in fun ways and provide endless enjoyment, curiosity and calm to newborns as well as older infants. Babies respond most to strong contrasts, simple shapes and joyful expressions.
